5310 Dhuy, Belgium

B level license

Cybersecurity student passionate about offensive security, vulnerability assessment, and defensive engineering. I actively sharpen my skills through CTFs and technical platforms such as TryHackMe and Root-Me. Curious, autonomous, and detail-oriented, I aim to leverage a practical attack/defense mindset to evaluate system robustness, secure complex infrastructures, and contribute to high-impact technical consulting projects.

## SKILLS

- **Linux & Unix** | Debian, Kali, Red Hat
- **Windows Server** | AD, GPO
- **CTFs & Pentesting** | Burp, Wireshark
- **Networking** | Cisco, Palo Alto, pfSense
- **Coding** | Python, C, Bash, PowerShell
- **Web Security** | OWASP Top 10, SQLi
- **Virtualisation** | Docker, Podman
- **Cryptography** | Fundamentals, Protocols

## INTERESTS

- **Ice Hockey** | Team spirit
- **Challenge & CTFs** | Competitive spirit
- **Cybersecurity Watch** | Curiosity

## LANGUAGES

- **French** | Native
- **English** | B2
- **Dutch** | A1

## PLATFORMS

- **Root Me** | Top 35,000
- **TryHackMe** | 50+ rooms completed

## EDUCATION

**Bachelor's Degree in Cybersecurity** | IESN – In Progress

**CESS – Math & Sciences** | Collège Abbé Noël – 2018 - 2024

## EXPERIENCE & PROJECTS

### COMPETITIONS (CTFs)

**University of Texas (UTCTF)** – 2026 Edition
**1st place at the Academic CTF (IESN)** – 2026
**Cyber Security Challenge Belgium** – 2025 & 2026 Editions

- Challenges : Web, Crypto, Forensics, Reverse, Pwn, Misc
- Self-taught in security tools using Kali Linux

### HACKATHON

**Citizens of Wallonia** – 10th Edition (Smart Cities) April 2025

- Developing innovative solutions and teamwork

### DELIVERY DRIVER & TEAM MEMBER

**Planète Pizza** – Since 2024

- Cash management, customer relations, and delivery logistics

## CERTIFICATIONS

- **OpenShift Dev I: Containers & Podman (Red Hat)** – May 2026
- **Pre Security Learning Path (TryHackMe)** – April 2026
- **Intro, Detection, Alerts (Elastic Security)** – March 2026
- **SecNumacadémie (ANSSI)** — October 2024
